WUZHEN

- Wuzhen is an ancient water town found in the south of Yangtze River. Known to be one of China's top ten famous towns, this charming place possesses a history that spans over 1300 years.
- Wuzhen has never changed its name, address, water system or lifestyle. The traditional buildings are still well preserved after enduring so many turbulent years. It charms you with its graceful water town scenery, uniquely-flavoured but tasty food, and various colourful folk-customs and festivals.

Being the first World Exposition on the theme of "City", Exposition 2010 attracts governments and people from around the world, focusing on the theme of "**Better City, Better Life.**" The organizers predict that this World Exposition will attract more than 70 million visitors with total investment reaching to RMB 30 billion, making it **one of the largest scales in the history of World Exposition.**

HANGZHOU

Impression West Lake

The outdoor performances are set around real mountains and rivers. Since the success of "Impression Liu Sanjie", director Zhang Yimou seems to be fascinated with this new form of visual art and is taking a break from making films. With its world famous landscape, West Lake is the most metropolitan theatre with natural mountains and waters as its backdrop. Due to the magic colours resulted from the clear climate changes in four seasons in Jiangnan, every time when you watch the show, you get a wonderful different feeling, to this point, each show is unique and un-duplicable.

- **West Lake** - the pristine lake surrounded by mountains on three sides and the city on the remaining side.
